

Broad Band End Launch Adaptors

Series 370

Features

- **Compact Design**
- **Low VSWR across the band**
- **Designs up to WG27 (WR10)**
- **Available in DC or Non-DC coupled designs**
- **Narrow Band Models Available**

Model 25373-VF50

Flann is pleased to announce our new line of end launch waveguide to coaxial adaptors. The Series 370 of end launch adaptors are available in waveguide sizes from WG10 (WR284) to WG27 (WR10)

The compact, precision Flann design keeps costs to a minimum and enables short lead times to be offered.

Depending on the operating frequency band, coaxial connectors are available in APC7, Type N, SMA, 2.92, 2.4mm and 1.85mm configuration.

Typical Broad Band Performance
